DANISH SEEDS

IN sending out this our third Seed List we wish to express our sincere thanks to all who have favored us with their business and recommended our seeds to their friends, and we hope we have succeeded in our efforts to treat all our customers so well that they will feel no hesitancy in favoring us with future orders. It shall always be our aim to have only the very best seeds obtainable, both from the best and most reliable growers in Denmark as well as from the most reliable growers in America and other seed-producing countries.

This last summer has not been a good season for seed-growing, causing a general shortage in almost all kinds of seeds, but we have been so fortunate as to get a fairly complete stock.

Your order will be very much appreciated.

Yours very truly,

DANISH SEED IMPORT,

CHRIS MOSBJERG.
